

HOW TO DESKUNK YOUR PET

IF YOUR PET HAS BEEN SKUNKED AND **HAS NOT** GOTTEN WET:

1. Use **SKUNK OFF** (available from your vet) and follow manufacturer's directions listed on the bottle, **or**
2. Make your own de-skunking solution, using recipe below.

1 quart 3% hydrogen peroxide

½ cup baking soda

1 tsp. liquid soap

Apply mixture to pet's **DRY** fur and work through. Let fur dry, then rinse and shampoo your pet using ordinary shampoo.

CAUTION: DISCARD ALL LEFTOVER SOLUTION! A CHEMICAL REACTION WILL OCCUR IN THE MIXTURE AFTER A 24-HOUR PERIOD CAUSING SEALED CONTAINER TO EXPLODE.

IF YOUR PET HAS BEEN SKUNKED AND **HAS** GOTTEN WET:

Buy several bottles of Massengill Douche (available at grocery stores and pharmacies) and work into pet's fur. Let fur dry, then rinse and shampoo your pet using ordinary shampoo.
