

OAKLAND PUBLIC SCHOOLS
and
SUSTAINABLE OAKLAND GREEN TEAM PRESENT:

ANTI

IDLING WEEK

September 23 - September 27

Idling for 10 seconds wastes more fuel than restarting

- 1 IT SAVES GAS
- 2 IT SAVES MONEY
- 3 IT SAVES THE PLANET!

In addition to wasting gas and contributing to air pollution, idling creates a concentrated area of emissions known as a hot spot in your school's pickup zone.

Children's health is significantly at risk in hot spots; young, developing lungs breathe more rapidly and inhale more pollutants.

SIGN THE PLEDGE!

Pledges will be distributed at all Elementary Schools and Valley Middle School on 9/23. Return to School by 9/27.

Pledges and additional information can be found at the Borough Hall, Oakland Senior Center, and Oakland Public Library.
